Male Beginner Gym Plan

NEXA Fitness Library · Educational guide

These general fitness notes are educational and are not medical advice. Use qualified professional guidance when you have a health concern, injury, pregnancy-related need or uncertainty about exercise.

- Session A: warm-up, leg press or squat, chest press, seated row, light hinge movement and a comfortable cool-down.
- Session B: warm-up, split squat or leg press, shoulder press, pulldown, light carry and a comfortable cool-down.
- Perform each movement with a load that leaves several good repetitions in reserve.
- Progress one variable at a time and prioritize consistency over intensity.

Safety reminder: use equipment as instructed, start within your ability, and stop if something feels unsafe or abnormal.
